Pregunta 2: En relación con la facturación, en la página 47 del PCAP se indica que se realizará por suministro y consumo de bolsa de horas. ¿Quiere esto decir que con el Suministro de los equipos se podrá facturar además el soporte y mantenimiento? En caso contrario, ¿podrían aclarar cómo se facturarían cada uno de los ítems reflejados en el Anexo II?

Respuesta 2: Sí, con el suministro del equipo se podrá facturar el soporte y mantenimiento del equipo. Los soportes entrarán en vigor a partir del día de recepción de los mismos.

Pregunta 3: Por favor, ¿podrían facilitar los números de serie del equipamiento del que hay que renovar el soporte indicados en el punto 3.4 del PPT, páginas 10 y 11?

Respuesta 3: Les remitimos al cuadro facilitado en respuesta a la pregunta 1.

Pregunta 4: La fuente PWR-C5-640WAC -640W AC Config 2 Power Supply Spare descrita en la página 63 del PCAP, ¿para qué equipos va a ser utilizada? En el catálogo de CISCO no figura dicha fuente, sólo existirían los códigos PWR-C5-1KWAC y PWR-C5-600WAC

Respuesta 4: Es una fuente de alimentación redundante para los equipos 9200L que son los equipos que tienen que suministrar. Es posible que el fabricante haya cambiado el código. La fuente a suministrar tiene que ser compatible con los modelos de los equipos que se solicitan en el Pliego.

Pregunta 5: Los equipos C1111-8P indicados en la página 62 del PCAP, ¿deben tener soporte de fabricante en 24x7 o solo asistencia remota en 24x7 y el soporte de fabricante en 8x5xNBD?

Respuesta 5: Si, Igual que los equipos 9200. En el pliego se indica: "Soporte remoto 24x7. Servicio de alertas; Servicio en Horario laboral" que quiere decir Asistencia remota 24x7 y soporte de fabricante en 8x5xNBD.

Los únicos equipos que llevan soporte de fabricante 24x7 son los Nexus y se indica expresamente en el Pliego.
